

THEY'RE GONE!!!™

Now What!

Now:

- I will never be at high risk of getting ovarian or testicular cancer.
- I will not fight to mate and risk getting fatal diseases.
- I will not roam or run away.
- I will not let new cats move

into my colony, this will keep the number of cats in the neighborhood down.

- I will not stink up your home with un-neutered cat smell.
- I will be less likely to spray and mark territory.
- I will not have baby kittens, every 62 days.
- I will live a much longer and healthier life.
- Best part of all, fewer pets will die in shelters just because my balls are gone. That is priceless!

SPAY AND NEUTER YOUR PETS AND THOSE THAT AREN'T YOURS TOO, LIKE THE STRAYS IN YOUR NEIGHBORHOOD.

On the fence about doing it?
